Foreword	3
Editorial	5
Contents	7
Executive Summary World Robotics 2018 Service Robots	11
1 Introduction into Service Robotics	18
1.1 Structure of the World Robotics 2018 “Service Robots”	18
1.2 Classification of service robots by application areas	20
1.2.1 Definition “Service Robotics”	20
1.2.2 Classification of service robots by application areas	21
1.2.3 Cost-benefit-considerations in a nutshell.....	24
1.2.3.1 Digression: A brief remark on unit costs	25
1.2.3.2 Remarks on cost-benefit considerations	25
1.2.3.3 Remarks on benefit factors.....	26
1.2.3.4 Remarks on market analysis	26
1.2.3.5 Remarks on general economic aspects for professional service robots..	28
1.2.3.6 Remarks on human worker substitution and cooperation with service robotics during task execution	29
2 Distribution of Service Robots	32
2.1 Service robots for professional use, sales 2016 and 2017	32
2.2 Service robots for personal and domestic use; sales 2016 and 2017	39
2.3 Projections for the year 2018 and the period 2019-2021: Service robots for professional use	42
2.4 Projections for the period 2019-2021: Service robots for personal and domestic use	43
2.5 Overview.....	44
2.6 Service robots by region of origin	45
3 Major Application Areas	48
3.1 Introduction	48
3.2 Service robots for professional use	52
3.2.1 Field robotics	53
3.2.1.1 Agriculture	54
3.2.1.2 Milking robots and livestock robotics	63
3.2.1.3 Mining systems.....	67
3.2.1.4 Space robots	72
3.2.2 Professional cleaning	77
3.2.2.1 Floor cleaning	77

3.2.2.2	Window and wall cleaning (including wall-climbing robots)	82
3.2.2.3	Tank, tube and pipe cleaning	84
3.2.2.4	Hull cleaning (aircraft, vehicles, ships etc.)	87
3.2.2.5	Other cleaning tasks	88
3.2.3	Inspection and maintenance systems	89
3.2.3.1	Facilities and plants	90
3.2.3.2	Tank, tubes, pipes and sewers	94
3.2.3.3	Other inspection systems (inspection robots for nuclear plants)	100
3.2.4	Construction and demolition	103
3.2.4.1	Nuclear demolition and dismantling	104
3.2.4.2	Building construction	110
3.2.4.3	Heavy/civil construction	113
3.2.4.4	Other construction systems (road construction)	115
3.2.5	Logistic systems	116
3.2.5.1	Automated Guided Vehicles (AGVs) in manufacturing environments ...	117
3.2.5.2	AGVs in non-manufacturing environments (indoor)	121
3.2.5.3	Cargo handling, outdoor logistics	127
3.2.5.4	Personal transportation	130
3.2.6	Medical robotics	132
3.2.6.1	Diagnostic systems	133
3.2.6.2	Robot-assisted surgery and therapy	135
3.2.6.3	Rehabilitation systems	142
3.2.6.4	Other medical robots	147
3.2.7	Rescue and security applications	149
3.2.7.1	Fire- and disaster-fighting robots	150
3.2.7.2	Surveillance/security robots	155
3.2.7.3	Other surveillance and security robots	161
3.2.8	Defence applications	162
3.2.8.1	Demining	163
3.2.8.2	Unmanned aerial vehicles (defence applications)	167
3.2.8.3	Unmanned ground-based vehicles	173
3.2.8.4	Unmanned Underwater Systems	178
3.2.9	Underwater systems (civil / general use)	181
3.2.10	Powered human exoskeletons	186
3.2.11	Mobile platforms in general use	189
3.2.12	Public-relations and joy rides	192
3.2.12.1	Hotel and restaurant	192
3.2.12.2	Guidance	194
3.2.12.3	Marketing	196
3.2.12.4	Robot joy rides	197
3.3	Service robots for personal/domestic use	198
3.3.1	Robots for domestic tasks	199
3.3.1.1	Robot companions, assistants, humanoids	199
3.3.1.2	Vacuuming, floor cleaning	203
3.3.1.3	Window cleaning	207

3.3.1.4	Lawn-mowing	208
3.3.1.5	Pool cleaning	209
3.3.2	Entertainment robots	210
3.3.2.1	Toys and hobby robots	210
3.3.2.2	Multimedia robots	213
3.3.2.3	Education and research.....	216
3.3.3	Elderly and handicap assistance	219
3.3.3.1	Robotized wheelchairs	219
3.3.3.2	Personal aids and assistive devices	221
3.3.4	Home security and surveillance.....	225
3.4	Examples of Service Robots by Application Area	227
4	Service Robotics Industry Structure	272
5	Selected Start-up Companies.....	300
5.1	DORABOT	301
5.1.1	How We Got Started.....	301
5.1.2	Where We Are Today	302
5.1.3	What We Do	302
5.1.4	Lessons We've Learned	304
5.2	Roboteam	307
5.2.1	Company Background	307
5.2.2	Our Products	309
6	Selected Awards	312
6.1	IERA Award	313
6.1.1	KUKA LBR Med	313
6.1.1.1	Background of KUKA and its medical competence	313
6.1.1.2	Novelty of the product.....	314
6.1.1.3	Market analysis, economic viability and pathway for commercialization	318
6.1.1.4	Current and future impact on and relevance to industry.....	319
6.1.1.5	IERA Award	321
6.1.2	Lely International Discovery 120 Collector	323
6.2	euRobotics Technology Transfer Award 2018	326
6.2.1	ROBOCEPTION – 3D perception & manipulation for robots made easy: rc_visard	326
6.2.1.1	Background	326
6.2.1.2	Motivation	326
6.2.1.3	Product: RC_Visard Stereo Sensor & RC_Reason Software Suite	327
6.2.1.4	Outlook	330
7	Standardisation and Safety	332
7.1	Introduction.....	332
7.2	ISO standardisation activities	332
7.2.1	Vocabulary and characteristics (WG 1)	333
7.2.2	Safety for personal care robots (WG 2).....	334

7.2.3	Performance criteria (WG 4).....	334
7.2.4	Safety for medical robots (JWG 5)	335
7.2.5	Modularity (WG 6)	335
7.2.6	Gaps and Structure (SG 1).....	336
7.3	IEC standardisation activities	336
7.4	IEEE standardisation activities	337
7.5	Possibilities to get involved in standardisation work.....	337
7.5.1	Attending international meetings	337
7.5.2	Contributing to national mirror committees.....	338
7.6	Relevant safety standards for service robots	338
