### Executive Summary World Robotics 2019 Service Robots                                      11  

#### 1 Introduction into Service robotics                                                            14  
1.1 Structure of the World Robotics 2019 “Service Robots”  
1.2 Classification of service robots by application areas                                           16  
1.2.1 Definition service robotics  
1.2.2 Classification of service robots by application areas                                           17  
1.2.3 Cost-benefit-considerations in a nutshell                                                     20  
1.2.3.1 Digression: A brief remark on unit costs                                                   21  
1.2.3.2 Remarks on cost-benefit considerations                                                     21  

#### 2 Distribution of Service Robots                                                                28  
2.1 Service robots for professional use, sales 2017 and 2018                                       29  
2.2 Service robots for personal and domestic use, sales 2017 and 2018.... 35  
2.3 Projections for the year 2019 and the period 2020 – 2022: Service robots for professional use  38  
2.4 Projections for the year 2019 and the period 2020 – 2022: Service robots for personal/domestic use  40  
2.5 Overview                                                                                       41  
2.6 Service robots by region of origin                                                              42  

#### 3 Major application areas                                                                         46  
3.1 Introduction                                                                                     46  
3.2 Service robots for professional use                                                             51  
3.2.1 Field robotics                                                                                 52  
3.2.1.1 Agriculture                                                                                 52  
3.2.1.2 Milking robot and livestock robotics                                                         62  
3.2.1.3 Mining systems                                                                              65  
3.2.1.4 Space robots                                                                                72  
3.2.2 Professional cleaning                                                                         77  
3.2.2.1 Floor cleaning                                                                               77  
3.2.2.2 Window and wall cleaning (including wall-climbing robots)                                   82  
3.2.2.3 Tanke, tube and pipe cleaning                                                               84  
3.2.2.4 Hull cleaning (aircraft, vehicles, ships etc.)                                               87  
3.2.3 Other cleaning tasks                                                                         89  
3.2.3.1 Facilities and plants                                                                        91  
3.2.3.1 Inspection and maintenance systems                                                           91
3.2.3.2  Tank, tubes, pipes and sewers
3.2.3.3  Other inspection systems (inspection robots for nuclear plants)
3.2.4  Construction and demolition
3.2.4.1  Nuclear demolition and dismantling
3.2.4.2  Building construction
3.2.4.3  Heavy/civil construction
3.2.4.4  Other construction systems (road construction)
3.2.5  Logistics systems
3.2.5.1  Automated guided vehicles (AGVs) in manufacturing environments
3.2.5.2  AGVs in non-manufacturing environments (indoor)
3.2.5.3  Cargo handling, outdoor logistics
3.2.5.4  Personal transportation
3.2.6  Medical robots
3.2.6.1  Diagnostic systems
3.2.6.2  Robot-assisted surgery and therapy
3.2.6.3  Rehabilitation systems
3.2.6.4  Other medical robots
3.2.7  Rescue and security applications
3.2.7.1  Fire- and disaster-fighting robots
3.2.7.2  Surveillance/security robots
3.2.7.3  Other surveillance and security robots
3.2.8  Defense applications
3.2.8.1  Demining
3.2.8.2  Unmanned aerial vehicles (defense applications)
3.2.8.3  Unmanned ground-based vehicles
3.2.8.4  Unmanned underwater systems
3.2.9  Underwater systems (civil/general use)
3.2.10  Powered human exoskeletons
3.2.11  Mobile platforms in general use
3.2.12  Public-relations and joy rides
3.2.12.1  Hotel and restaurant
3.2.12.2  Guidance
3.2.12.3  Marketing
3.2.12.4  Robot joy rides
3.3  Service robots for personal/domestic use
3.3.1  Robots for domestic tasks
3.3.1.1  Robot companions, assistants, humanoids
3.3.1.2  Vacuuming, floor cleaning
3.3.1.3  Window cleaning
3.3.1.4  Lawn-mowing
3.3.1.5  Pool cleaning
3.3.2  Entertainment robots
3.3.2.1  Toys and hobby robots
3.3.2.2  Multimedia robots
3.3.2.3  Education and research
